

## Cell Biology and Pathology of Myelin: Evolving Biological Concepts and Therapeutic Approaches

---

By -

Springer-Verlag New York Inc., United States, 2012. Paperback. Book Condition: New. 251 x 178 mm. Language: English . Brand New Book. This volume contains papers presented at the Fourth International Altschul Symposium, held June 27-29, 1996, at the University of Saskatchewan in Saskatoon, Saskatchewan, Canada. The Altschul Symposia Series are held in memory of Rudolf Altschul, a graduate of the University of Prague and a pioneer in the fields of vascular and nervous system biology. Dr. Altschul was head of the Department of Anatomy at the University of Saskatchewan from 1955 to 1963. The Altschul Symposia are made possible by an endowment left by Anni Altschul, Dr. Altschul's wife, and by other contributions given by the sponsors listed at the end of this Preface. The objective of the Fourth Altschul Symposium, entitled Cell Biology and Pathology of Myelin: Evolving Biological Concepts and Therapeutic Approaches, was to facilitate the transfer of ideas on the biology and pathology of myelin from the research laboratory to the clinic by providing a forum for discussing the evolving biological concepts regarding myelin function in health and disease. Softcover reprint of the original 1st ed. 1997.
