

## Modelling for Added Value

Filesize: 5.59 MB

### **Reviews**

*This is an remarkable pdf which i actually have actually study. I have go through and that i am sure that i am going to planning to study once again yet again later on. Once you begin to read the book, it is extremely difficult to leave it before concluding.*

Springer Jul 1998, 1998. Taschenbuch. Book Condition: Neu. 235x155x13 mm. This item is printed on demand - Print on Demand Neuware - This book gathers together research from three key application themes of modelling in operational research - modelling to support evaluation and change in organisations; modelling within the development and use of organisational information systems; and the use of modelling approaches to support, enable and enhance decision support in organisational contexts. The issues raised provide valuable insight into the range of ways in which operational research techniques and practices are being successfully applied in today's information-centred business world. Modelling for Added Value provides a window onto current research and practise in modelling techniques and highlights their rising importance across the business, industrial and commercial sectors. The book contains contributions from a mix of academics and practitioners and covers a range of complex and diverse modelling issues, highlighting the broad appeal of this increasingly important subject area. TOC:Theme I: Modelling for Evaluation and Change: Modelling for Change: An Information Systems Perspective on Change Management Models - Macredie, Sandom and Paul. Information Systems as Powerful Forces of Change - Anketell. How the Open University Uses Information Technology to Provide Distance Learning in a Competitive Market - Lucas-Smith. Information Technology as a Tool for Performance Measurement and Auditing - Williamson and Vella. Co-ordinating Change Through Effective Communication at Englands Newest University - Duckett. The Simulation of Taiwans Power Generation System - Vella and Chen. Performance Measurement, Goal Setting and Feedback in Engineering Design - Busby, Williamson and Williams. Using Information Technology to manage the change process in organisations - Vella and Williamson.- Theme II: Modelling for Information Systems: Issues in Information Systems Development Models - Paul and Macredie. The Metaphysical Foundations of Soft and Hard Information Systems Methodologies - Probert. Information Systems...
