

# The Effect of Soloshenko-Yanchilin - Gravitation and Time

By Soloshenko, Mikhail / Yanchilin, Vasily

Book Condition: New. Publisher/Verlag: Scholar's Press | Acceleration of Time in Gravitational Field | "Acceleration of time in the field of gravity kills the black stars" - the authors state the paradoxical issue. This book is devoted to the scientific physical discovery - The Effect of Soloshenko-Yanchilin - acceleration of time in a gravitational field. The authors have created the basis for the new quantum theory of gravitation. Gravitation is the quantum phenomenon. The main goal of this paper is to initiate a public scientific discussion, and to make a challenge to an intellectual battle on the question of the rate of time in the field of gravity. Time goes faster in the field of gravity. The authors propose a crucial physical experiment with two high precision atomic clocks to verify their discovery. The physical verification of the effect to be true will be the direct way to control gravitation ([www.is-si.ru/zero-transport-systems.pdf](http://www.is-si.ru/zero-transport-systems.pdf)) and will open up a new age for the physics of gravitation and time. This book will be interesting to all experts in gravitation and cosmology, scientists and students curious in gravitation and space-time, who strives to understand the physics of gravity. | Format: Paperback | Language/Sprache: english |...
