A whole new eBook with a brand new point of view. It is definitely simplistic but shocks in the 50 percent of the publication. I am just pleased to explain how this is the greatest ebook i have read during my very own daily life and could be he best ebook for possibly.

Brand New Book ***** Print on Demand *****.During the search for her roots, this mixed blood woman, discovered profound teachings in many Native American legends. Jenny Ray introduces us to each storyteller, with blunt, yet humorous descriptions of real people, not the false romantic Hollywood version of the American Indian. Sharing her experience of sitting by the camp fire, listening to the great-grand-nephew of Chief Joseph, reminds us that our past history is more recent than we think! She brings to life, the voices of these Wisdom Keepers, with respect, but not the blind folk-hero worship that distorts the intelligence of these true Americans. The animal characters in many of these stories express the spiritual lessons and moral values that most people seek to attain. At first glance the stories might seem childlike in their innocence, but the deeper truths of how to walk in harmony with our Creator invites you to explore the elegance of a Shamanic philosophy. The threads of many spiritual practices are tied together in the powerful truths of these stories. You can feel the multifaceted perspectives of elders who teach the traditions of their people, while honoring the new Christian religions that blend with their contemporary culture. As you read the legends your ears are filled with the songs of each animal. On one Journey to the underworld, you know you have shrunk to the size of an ant as you see the rooted-ones hanging overhead. Yet it is just a story! We experience the creative imagery found only in the descriptive words and sounds of a story. We are transported to the realm of make-believe in a flash and come back knowing...
