The reason for this is because there are many types of animals in the world that look adorable, can be seen in the wild, and also kept as pets. However, arctic animals are ones that a person may never get the chance to see if they do not live in the colder parts of the world. This beautiful guide allows children to see animals that live and thrive in cold environments where many others do not, but also gives an in depth view about the many skills these animals use to survive in this environment.
