This poses the challenge in monitoring and evaluation of ICT Projects and not only that, but it is also difficult to measure the status quo of ICT development and digital divide among societies. This dissertation was both exploratory and descriptive in nature; therefore, it utilized both quantitative and qualitative research approaches. A survey conducted used purposive sampling with informants being stakeholders with basic IT knowledge and IT personnel. Data was collected through a survey of 45 organizations in both techniques of face-to-face and online, with a total of 80 respondents. Data collected examined the level of importance or applicability of 90 ICT indicators in their respective 10 sector parameter. Findings indicated that,...
