

Economic Development: U.S. Preparations for an International Conference on Broadcast Satellites: Rced-83-121

By -

BiblioGov. Paperback. Book Condition: New. This item is printed on demand. Paperback. 40 pages. Dimensions: 9.7in. x 7.4in. x 0.1in. In response to a congressional request, GAO provided information on the technical, diplomatic, and policy preparations taken by federal agencies for the Regional Administrative Radio Conference to be held in 1983. This conference will plan for multi-nation broadcasting satellite service implementation in the Western Hemisphere and will consider problems of sharing the its radio frequencies with existing communications satellite services. GAO found that interagency committees have helped coordinate both policy and technical preparations for the conference, an initial steering group has been formed, and a senior-level interagency group will review the U. S. positions developed for the conference. A working group has discussed technical issues to be addressed at the conference and has formed a computer user group to help facilitate computer use at the conference and to keep agency representatives informed about individual agency preparatory activities. Individual federal agencies have been responsible for those items which affect them most directly. In addition, the Federal Communications Commission has established an advisory committee which helped integrate private sector views on broadcasting satellite service into conference preparations. Action has yet to be taken...
