Reviews

This publication will be worth purchasing. It really is written in simple terms instead of difficult to understand. It has been designed in an exceptionally simple way and is particularly only right after I finished reading this ebook in which it basically modified me, altered the way I believe.

TIMES EYE TIME ODYSSEY

Del Rey. Paperback. Book Condition: New. Mass Market Paperback. 384 pages. Dimensions: 6.8in. x 3.9in. x 1.3in. Sir Arthur C. Clarke is a living legend, a writer whose name has been synonymous with science fiction for more than fifty years. An indomitable believer in human and scientific potential, Clarke is a genuine visionary. If Clarke has an heir among today's science fiction writers, it is award-winning author Stephen Baxter. In each of his acclaimed novels, Baxter has demonstrated dazzling gifts of imagination and intellect, along with a rare ability to bring the most cerebral science dramatically to life. Now these two champions of humanism and scientific speculation have combined their talents in a novel sure to be one of the most talked-about of the year, a 2001 for the new millennium. **TIMES EYE** For eons, Earth has been under observation by the Firstborn, beings almost as old as the universe itself. The Firstborn are unknown to humankind until they act. In an instant, Earth is carved up and reassembled like a huge jigsaw puzzle. Suddenly the planet and every living thing on it no longer exist in a single timeline. Instead, the world becomes a patchwork of eras, from prehistory to 2037, each with its own indigenous inhabitants. Scattered across the planet are floating silver orbs impervious to all weapons and impossible to communicate with. Are these technologically advanced devices responsible for creating and sustaining the rifts in time? Are they cameras through which inscrutable alien eyes are watching? Or are they something stranger and more terrifying still? The answer may lie in the ancient city of Babylon, where two groups of refugees from 2037—three cosmonauts returning to Earth from the International Space Station, and three United Nations peacekeepers on a mission in Afghanistan—have detected radio signals: the only such signals on the...
