Now cut a strip of metal slightly thicker and wider than the proposed molding. Having annealed it, pass one end through the groove you have made in the swageblock, and screw the plain block down so. as to press slightly on the metal. Now fix the swage-block in the vise, take the drawtongs and pull the strip through with a steady movement. Pass the strip through the swage again and turn the screw slightly, pressing the metal more closely into the mold. Repeat this, annealing the metal from time to time until you i have made the molding as complete and as thin as you wish. 1 i i By modifying the section of the groove in the swage, and by filing the lower surface of the upper swage-block, hollow Moldings moldings of almost any section can be produced, provided, of...
